

Quick-Start Checklist

Check that your environment meets the prerequisites before moving on.

- ☐ Flowise Account
Sign up at <https://flowise.com> and obtain an API key.
- ☐ n8n Account
Sign up at <https://n8n.io> and create a workspace.
- ☐ Stable Internet connection

For Devs:

- ☐ Node.js 18+ installed
Verify with ``node -v``
(should show ``v18.x.x`` or higher).
- ☐ Firebase CLI
Install via ``npm i -g firebase-tools`` and run ``firebase login``.
- ☐ Git
Ensure Git is installed (``git --version``) and you have a GitHub account.
- ☐ Firebase Project
Create a new project or use an existing one; enable Firestore and Cloud Functions.
